Overall Comr	nents
•	e any additional feedback on the participant's overall and potential for leadership:
periormanee	and potential for leadership.

Thank you for your time and input!

Please note that this is a very simplified example. An actual 360-degree feedback form would likely contain more competencies, more granular rating scales, and may even have sections for qualitative feedback on specific aspects of the person's performance. It is also important to ensure that the feedback process is handled with discretion and sensitivity, given the personal nature of the information being provided.
